Training Content

- 1. Week: Changes in the role of teachers, active learning methods, evaluation techniques, innovation in education**
 - Discussions, suggestions knowledge sharing on the forum!
 - Teachers read the teaching methods and select 1 method and 1 evaluation technic what they intend to use later in their pilot digital lesson.
 - Teachers also select one of the creative techniques and describe the situation in which they could/plan to apply it.
- 2. Week: Digital tools for pedagogical aims**
 - Discussions, suggestions knowledge sharing on the forum!
 - Teachers select at least 3 digital tools from different categories, about which they will learn more in the workshops and they will practice as well. They must give their reasons, how the selected tools were aligned with their pedagogical and teaching aims.
- 3. Week: Using Open Educational Resources and planning lessons and projects by using digital tools**
 - Discussions, suggestions knowledge sharing on the forum!
 - The task for the teachers is to recommend repositories where they can browse free learning content, and share their experiences, good practices on the forum with other participants.
 - They prepare a draft of their pilot lesson/project online on the interface and their individual development plan based on the experience of the training. What digital tools and teaching methods would you like to learn more about and why?

Participants, results of the assignments

Participants of the training (10 teachers from each school)

- 1.
- 2.
- ...

Fill in the table below based on the assignments of your group.

Assignment	Number of assignments	Scores	
		Maximum	Average of the group
Assignment 1		25	
Assignment 2		15	
Assignment 3		30	
Activity on forums		10	
Group work		20	
		100	

Sum: 100 points, threshold: 75.

Evaluation of the assignments

Assignment 1.

1.Week:	25 points
Select a topic for your lesson/project you will be piloting with your students	5 points
Description of the selected teaching method and reasoning why	10 points
Description of the innovative technics and assessment method and reasoning why	10 points

EVALUATION BY THE MENTOR

Forum discussion: Changes in the role of teachers, active learning methods, evaluation techniques, innovation in education

Number of the comments:

Short summary and conclusion based on the comments:

XXXX

Please, give a list of the methods and technics most frequently selected:

XXX

What can be behind the decision of the teachers? How do they intend to use the method?

Assignment 2.

Week **15 points**

Select 3 digital tools from DMC not used earlier

Give the reasons for your selection,

How the tools aligned with the topic and age group of students 15 points

EVALUATION BY THE MENTOR

Forum discussion: Digital tools for pedagogical aims

Number of the comments:

Short summary and conclusion based on the comments:

xxxx

Please, give a list of the methods and technics most frequently selected:

What can be behind the decision of the teachers? What were the pedagogical aims the teachers wanted to support by the tools they selected?

Assignment 3.

3.Week **30 points**

1.Suggestion by the participant to include a free repository to the list on DMC that is considered useful but is missing from there 5 points

2.Lesson plan (created on the platform) 10 points

3.Individual development plan 10 points

4.Feedback, evaluation on the training course and the platform 5 points

EVALUATION BY THE MENTOR

Which of the repositories presented on DMC would you recommend to other teachers and why? Suggest a repository that is not shown on DMC but is familiar to you and might be useful

Number of the comments with recommendation of OERs on the blog:

LESSON PLANS

Number of lesson/project plans published on DMC: xxx

Subjects, topics, qualification: short statistics, typical problems. Digital tools are connected to well-defined pedagogical aims.

Number of recommendations for repositories DMC:

Suggestion for workshop topics based on the individual development plan and the draft action plan for the workshops

The mentors will plan the workshops by using the information collected from the teachers in the table below. Please, share with us the information for further discussion and for planning the workshops.

Workshop plan	
Method, digital tool, repository	Number of Workshops

Planning sustainability based on the feedbacks of the participants

Based on the result of the online feedback questionnaire, **please write a short summary about the course together with your suggestions for improvement.** What are the critics, suggestions of the participants?

It is highly important for the project to prove that the results will be sustainable after the project period. Please, give your opinion and suggestions here:

1.How far do you think DMC platform will be used after closing the project?

2. What should be changed, improved for long-term sustainability?
